

XII INTERNATIONAL CONFERENCE ON KMC WORKSHOP
14 – 17 November
BOGOTA, COLOMBIA/ 2018

XII INTERNATIONAL CONGRESS ON KMC /INK 2018

Kangaroo Mother Care and Neuroprotection of the premature brain.

16 of November 2018

Time	Activity	Comments
7:00-8:00	Registration	Installation of the posters (Congress)
8:00-8:30	Inauguration	Rector/PUJ , Minsalud, FC Table: UNICEF,OPS, Minsalud, HUSI, FC, OMS
8:30-8:45	KMC history	Dr Edgar Rey (Summary IMI, UN, PUJ, FC)
8:45-9:30	Transition of the fetus to the newborn: risks for the developing brain Virtual presentation conducted by Dr Nelly Padilla, neonatologist and colleague from the KI	Hugo Lagercrantz ** Senior Professor of pediatrics Karolinska Institute. He was director of the Neonatal Programme at the Astrid Lindgren Children´s Hospital until 2004. He has been president of the Swedish Pediatric Society and the European Society for Pediatric Research. He has also been European chief editor for Pediatric Research and is presently editor-in-chief for Acta Paediatrica. He has been a member of the Nobel Assembly and the Nobel Committee hugo.lagercrantz@kbh.ki.se
KMC and the brain of the premature infant (I) Chairman: N Charpak R Tessier F Uriza		
9:30-10:00	Short-term and long-term follow-up of the effects and sequelae of premature birth: State of the art	Saroj Saigal, Pediastra** Dr. Saigal has been Professor of Pediatrics since 1984, and is currently Professor Emerita at McMaster. She runs the follow-up clinic of preterm infants Mastersaigal@mcmaster.ca
10:00-10:30	Studying the premature infant brain	Petra Huppi, Pediastra**

Time	Activity	Comments
	development: role of neuroimaging	Petra S. Hüppi is since 1989 involved in MR-research. Currently being the Head of the Child Development Unit at the University of Geneva - Switzerland, she leads research in advanced MRI techniques and neuro-developmental assessment to look at the effects of intra-uterine growth restriction on structural and functional development of the brain petra.huppi@hcuge.ch
10:30-10:45	Questions	
10:45-11:00	Coffee15 mn	
KMC and the brain of the premature infant (II)		
11:00 11:30	Impact of IUGR on the premature brain and consequences at middle and long term	Nelly Padilla** neonatologist Karolinska Institute nelly.padilla@ki.se
11:30-12:00	Potential impact of KMC on the neuro behavior of the ex-premature infant at middle and long term	Rejean Tessier** Professeur en psychologie du développement /spécialiste pour les enfant prématurés / spécialiste de la méthode Mère Kangourou. Psicólogo epidemiólogo Universidad Laval, Quebec y Nathalie Charpak, pediatra Fundación Canguro ncharpak@gmail.com
12:00-12:15	Questions	
12:15 12:45	Current knowledge and evidence about prevention of premature birth and perinatal brain protection when preterm birth cannot be avoided.	Dr Juan Manuel Acuña Chair, Department of Medical and Health Sciences Research Miami, United States Florida International University
12:45 13:00	Questions	
13:00-14:00	Lunch	
KMC and NCU (NCIU included) Chairman: Susan Ludington, Carmen Pallas , Henri Sanchez		
14:00-14:30	KMC as part of standard care in a high-tech neonatal unit	Ylva Thernström Blomqvist PhD, RN** FoUU-ansvarig Specialistsjuksköterska inom Omvårdnad. Intensivvårdsavdelningen för nyfödda, avd 95F. Akademiska arnsjukhuset

Time	Activity	Comments
		751 85 Uppsala yva.thernstrom_bloomqvist@kbh.uu.se
14:30-15:00	Kangaroo Position as a new place for procedures in a NICU	Carmen R. Pallás-Alonso** Chief of the neonatal Unit, 12 de Octubre University Hospital, Madrid, Spain kpallas.hdoc@gmail.com
15:00-15:30	KMC as a tool for stabilization of the preterm infant immediately after birth: research protocols of a multicenter and muticountry study	Nils Bergman MD, MPH ** Research Associate, Department of Pediatrics, Division of Neonatology, Karolinska Institute, Stockholm, Sweden. nils.bergman@ki.se
15:30-16:00	Decreasing Barriers to KMC Utilization in the NICU in USA	Karen D. Hendricks-Munoz, MD, MPH** Children's Hospital of Richmond at VCU, 1001 East Marshall Street-VCU Health System, Critical Care Hospital, NICU-6, P.O. Box 980276, Richmond, VA 23298 (e-mail: khendricks-munoz@mcvh-vcu.edu)
16:00-16:30	Family Centered Care and KMC in term and preterm infants	Raylene Phillips, MD, FAAP, FABM, IBCLC * Loma Linda University Children's Hospital, Department of Pediatrics, Division of Neonatology, 11175 Campus Street, CP 11121, Loma Linda, CA 92354 rphillips@llu.edu
16:30-16:45	Questions	
16:45-18:00	Posters viewing session. Choice of the 3 best posters on KMC as a neuro protective tool for the brain of the premature infant.	
19:00	DINNER	

17 of November 2018

World Prematurity Day

Time	Activity	Comments
7:00-9:00	Report of the workshop held during the 14 and the 15 of November	JGRuiz y Adriano Cattaneo juan.gabriel.ruiz@gmail.com adriano.cattaneo@gmail.com
9:00 -9:30	Update of the KMC Evidence based practice guideline Update 2007-2017 And presentation of the technical guide to implement KMC programs from the Colombian Health Ministry	Nathalie Charpak, pediatrician, Director Fundacion Canguro, Scientific Coordinator PMCI ncharpak@gmail.com
9:30-10:00	Update on currently available synthesis of on KMC .	Jose Belizan* Obstetrician, doctor in Biology of the reproduction of the University of Salvador and medical doctor of the University of Rosario. He currently serves as principal investigator in the Department of Health Research of the Mother and Child of the IECS. He is also an associate professor at the University of Tulane and University of North Carolina at Chapel Hill (United States) and Senior Researcher at the National Council of Science and Technology of Argentina (CONICET). belizanj@gmail.com jbelizan@iecs.org.ar
10:00-10:15	Questions	
Kangaroo Nutrition: Breastfeeding of the premature infant Chaiman: Luz Angela Artuduanga Javier Diaz, Dra Ana Maria Bertolotto		
10:15-10:45	Impact of maternal milk on the neuro development of the premature infant	Richard J Schanler** Professor, The Center for Pediatric Research, The Feinstein Institute for Medical research Co-Director, Lilling Family Neonatal Research Laboratory, The Feinstein Institute for Medical research. Professor of Pediatrics, Donald and Barbara Zucker School of Medicine at Hofstra/Northwell. Director of Neonatal Services, Cohen Children's Medical

Time	Activity	Comments
		Center and Northwell Health schanler@northwell.edu
10:45-11:15	KMC and breastfeeding	Carmen R. Pallás-Alonso** Neonatal Unit, 12 de Octubre University Hospital, Madrid, Spain kpallas.hdoc@gmail.com
11:15-11:45	Survey on practices in breastfeeding and KMC in NCIU of 36 countries.	Laura Haieck** Ministère de la Santé et des Services sociaux, Direction générale de santé publique, Quebec, Canada, and Department of Family Medicine, McGill University, Montréal, Québec, Canada laura.haiek@msss.gouv.qc.ca
10:45-11:00	Questions	
11:00-11:15	Coffee	
Kangaroo follow up and early child development Chairman: Juan Gabriel Ruiz, Ornella Lincetto		
11:15-11:45	Early Diagnosis of Cerebral Palsy after Prematurity to Promote Engagement ,Plasticity and Family Well being	Michael Msall* Professor of Pediatrics. Section Chief, Developmental and Behavioral Pediatrics Department of Pediatrics. Develop. & Behavioral Peds. Practice Location The University of Chicago Medicine Comer Children's Hospital 5721 S. Maryland Avenue Chicago, IL 60637 mmsall@peds.bsd.uchicago.edu
11:45-12:15	Successful public health policy: detection of ROP in Colombia. The evidence-based guide of detection of the ROP OPS/PAHO	Pedro Acevedo y Claudia Zuluaga* Pediatric Ophtamologists Colombia pjacevedo_md@yahoo.com czuluaga@imbanaco.com.co
12:15-12:45	The Kangaroo Mother Care program as an opportunity for assessing and improving early child development: Follow up of high-risk infants during their two year of life	Nathalie Charpak, pediatrician, Director Fundación Canguro, Scientific Coordinator PMCI ncharpak@gmail.com

Time	Activity	Comments
	High risk follow up clinics in Chile: a national policy	Monica Morgues** University of Chile, Santiago with expertise in Nutrition and Dietetics, Pulmonology, Respiratory Medicine
12:45-13:15	Early child development and KMC follow up	OMS Ornella Lincetto*
13:15-13:30	Questions	
13:30-14:00	Lunch	
14:00-14:30	Vision of a worldwide dissemination, implementation and uptake of KMC	<p>Karlee Silver, PhD</p> <p>Dr. Silver has been with Grand Challenges Canada since it launched, and led the process of selecting the organization's prioritized grand challenges. Prior to joining Grand Challenges Canada, Dr. Silver trained in the laboratory of Dr. Kevin Kain at the Sandra Rotman Centre in Toronto, first as a Canadian Institutes of Health Research postdoctoral fellow, then as a MITACS Elevate postdoctoral fellow, where she helped to identify host responses of malaria infection in pregnant women to harness for diagnostic and therapeutic purposes.</p> <p>Dr. Silver received her doctorate in 2006 from the University of Oxford, where she attended as a Rhodes Scholar and trained in genetics and immunology under the supervision of Professor Richard Cornall and Professor Sir John Bell. An accumulation of inspirations, including traveling through southern Africa after Oxford, led to a refocus towards global health. Witnessing both the strength of women to sustain their families and communities, and the vulnerability of these same women to the consequences of poverty inspired Dr. Silver to apply herself to health issues of women in developing countries.</p>
14:30-15:00	Translacional research and KMC	<p>Juan Gabriel Ruiz</p> <p>Pediatrician, Clinical Epidemiologist</p> <p>Associate Professor, Department of Medical and Population Health Sciences Research, Herber Wertheim, Universidad de Florida, Miami</p> <p>juan.gabriel.ruiz@gmail.com</p>

Time	Activity	Comments
15:00-15:30	Presentation of the 6 best posters (3 mn per poster and 2 mn for questions), 3 posters on KMC implementation and 3 posters on KMC as a neuroprotective tool of the premature brain	Chairman: Socorro De León-Mendoza
15:30-15:45	UNICEF World day of prematurity (Video)	UNICEF Luz Angela Artuduanga
15:45-16:00	Closure	PUF Juan Gabriel Ruiz and Nathalie Charpak
